

Mastering Wealth offers a number of courses throughout the year in four major capital cities. Our courses cater for all levels of experience whether you are brand new to trading or have been trading for years, there is something there for everyone.

### MW 2 Day Stock & Options Course

*The Mastering Wealth 2 Day Stock & Options Course* will be two action-packed, fun filled days of financial discovery. This course is totally unlike other courses. We don't just present the information, we focus on you learning it. This ensures that you will have the confidence and skills to immediately put into practice the awesome income producing and high return strategies you will learn. *The Mastering Wealth 2 Day Stock & Options Course* includes, 2 Day Live Attendance, Detailed Course Manual, 6 Month Complimentary Subscription to our *Income Series – Low Market Report* valued over \$647 dollars, Free re-attendance, Full phone and email support, morning and afternoon tea on both days.

### MW Strategy Course – Covered Calls / Collars

*The Mastering Wealth 1 Day Strategy Course on Covered Calls and Collars* will teach you how to earn a regular monthly income from shares as well as how to protect these positions and limit your risk. Learn to master this simple, yet effective strategy to consistently build your wealth. Attendance to this course also includes a 6 Month Complimentary Subscription to our *Income Series – Low Market Report* so you can immediately see what you have learnt in action!

### MW Strategy Course – Calendar Spreads

*The Mastering Wealth 1 Day Strategy Course on Calendar Spreads* will teach you how to earn premium without buying stock. Learn about volatility skews and use time decay to your advantage as we show you how to find and enter positions with very little, and at times zero risk. Attendance to this course also includes a 6 Month Complimentary Subscription to our *Hedge Series Market Report* so you can immediately see what you have learnt in action!

### MW Strategy Course – Credit Spreads / Iron Condors

*The Mastering Wealth 1 Day Strategy Course on Credit Spreads and Iron Condors* will teach you how to non-directionally trade indices and stocks. Learn how to position yourself into trades with a high probability of success and earn an income in any market direction. Attendance to this course also includes a 6 Month Complimentary Subscription to our *Platinum Spread – Medium Market Report* so you can immediately see what you have learnt in action!

### MW Strategy Course – Directional Trading

*The Mastering Wealth 1 Day Strategy Course on Directional Trading* will teach you how to use the powerful leverage and flexibility of options to take advantage of both bullish and bearish moves in the market. With limited risk and an unlimited profit potential, mastering directional trading has the power to dramatically grow your portfolio! Attendance to this course also includes a 6 Month Complimentary Subscription to our *Q4 Reflex Market Report* so you can immediately see what you have learnt in action!

### MW Strategy Course – Options Selling

*The Mastering Wealth 1 Day Strategy Course on Options Selling* will teach you how to utilise the power of selling/writing options to collect fantastic premium on a regular basis. Learn how to correctly manage and take advantage of the leverage available to you, as well as how to gain an edge by first writing options when looking to purchase stock. Attendance to this course also includes a 6 Month Complimentary Subscription to our *Power Writer Market Report* so you can immediately see what you have learnt in action!

### Advanced Technical Analysis & Volatility Course

*The Mastering Wealth 2 Day Technical Analysis & Volatility Course* will cover Technical Analysis, Volatility and the Greeks including how to read and use some of the most effective indicators available in the market. Learn how to increase the probability of success in your trades and how to make wise, disciplined decisions in any trading situation. We will also teach you about the importance of understanding the four risk measures – delta, theta, vega and gamma – and how these relate to time decay, implied volatility and changes in the underlying stock's price.
